Cascade Mountain - Wisconsin

Contributed by Administrator
Sunday, 20 May 2007

Situated in the Baraboo Bluff region of south-central Wisconsin, Cascade's north-facing slopes offer real skiing variety. Some of their trails, like the Mogul Monster, are steep and challenging to any skier, while trails like Adele's Alley are over a mile long and fun for beginners and cruisers. Getting to the top of the mountain is fast and easy with ten lifts, including the high-speed Mountain Express quad chairlift.

Overnight guests have a variety of lodging options near Cascade Mountain. A phone call to Cascade Mountain's Lodging Service can set you up with vacation packages that include lift tickets, lodging, food and lessons. Wisconsin Dells is just a few minutes away, and you can add the fun of America's largest and best indoor waterparks to your skiing vacation.
